#### **Online Resources:**

Starting and running an aging-in-place business requires access to valuable online resources to help you build and manage your services effectively. Here are some of the best online resources for your aging-in-place business:

#### **National Aging in Place Council (NAIPC):**

##### **[www.aginginPlace.org](http://www.aginginPlace.org)**

NAIPC offers a wealth of information and resources for aging-in-place businesses. They provide insights into the industry, educational materials, and a directory of professionals and businesses in the field.

National Association of Home Builders (NAHB):

##### **[www.nahb.org](http://www.nahb.org)**

NAHB's Aging-In-Place (CAPS) program offers valuable training and resources. The website provides access to educational materials, events, and networking opportunities.

AARP Livable Communities:

##### **[www.aarp.org/livab](http://www.aarp.org/livab)**

AARP's Livable Communities initiative provides resources and tools to support aging in place, including information on accessible design, transportation, and housing.

**Aging Life Care Association (ALCA):**

Website: [AgingLifeCare.org](http://AgingLifeCare.org)

ALCA provides resources and information for professionals who offer care management and consulting services to seniors. It's a valuable resource for networking and education.

**Administration for Community Living (ACL):**

[www.acl.gov](http://www.acl.gov)

The ACL offers information on aging and disability services, grants, and initiatives. It's a good resource for understanding government programs and services that support aging in place.

**National Resource Center on Supportive Housing and Home Modification:**

[www.HomeMods.org](http://www.HomeMods.org)

This center provides resources, guides, and research on home modifications and supportive housing for seniors and people with disabilities.

**Aging in Place Technology Watch:**

[www.AginginPlaceTech.com](http://www.AginginPlaceTech.com)

This website offers insights into technology solutions and innovations that support aging in place. It's a great resource for staying updated on the latest technology trends.

**Home Health Technology News:**

[www.HomeHealthTechNews.com](http://www.HomeHealthTechNews.com)

This news source covers technology developments and trends related to aging in place and home healthcare.

**Home Care Magazine:**

[www.HomeCareMag.com](http://www.HomeCareMag.com)

Home Care Magazine provides information and insights into the home care and aging-in-place industries, including news, articles, and resources.

**Online Communities and Forums:**

Participate in online forums and communities for aging-in-place professionals, where you can ask questions, share experiences, and network with others in the field. Platforms like LinkedIn and specialized online forums can be helpful.

Remember to continuously explore these online resources and stay updated on industry trends, best practices, and emerging technologies to provide the best services for your aging-in-place business.

### **Books and Publications:**

Several excellent books and publications can provide valuable insights and guidance for individuals interested in the aging-in-place business. These resources cover various aspects of the industry, including home modifications, healthcare, design, and business strategies. Here are some of the best books and publications in this field:

### **Books:**

"Aging in Place: A Guide to Modifying, Organizing and Decluttering Mom and Dad's Home" by Lynda G. Shrager:

This book offers practical advice on how to assess a senior's home, make necessary modifications, and create an organized and clutter-free living environment.

"Universal Design for the Home: Great Looking, Great Living Design for All Ages, Abilities, and Circumstances" by Wendy A. Jordan:

Wendy A. Jordan explores universal design principles and how to apply them to create homes that are accessible, safe, and aesthetically pleasing.

"Residential Rehabilitation: Unusual Solutions to Common Problems" by David M. Lepofsky:

This book covers creative solutions for residential rehabilitation and home modifications, with a focus on practical approaches to common issues.

"Universal Design: A Step-by-Step Guide to Modifying Your Home for Comfortable, Accessible Living" by Barbara Krueger and Nika Stewart:

The authors provide a step-by-step guide to implementing universal design principles and making homes more accessible and comfortable.

"Aging in the Right Place" by Stephen M. Golant:

Stephen M. Golant examines the challenges and opportunities associated with aging in place, including housing decisions, support networks, and community-based services.

## **Publications:**

### Journal of Aging Research:

This scholarly journal publishes research and articles related to various aspects of aging, including aging-in-place strategies and outcomes.

### Home Health Care Management & Practice:

This journal focuses on home healthcare, home modifications, and aging-in-place solutions, offering research and insights for professionals in the field.

### Aging in Place Magazine:

A publication dedicated to the aging-in-place industry, offering articles, case studies, and best practices for professionals and families.

### Age-Friendly Communities: The Movement to Create Great Places to Grow Up and Grow Old In:

Published by the World Health Organization (WHO), this guide provides insights into creating age-friendly communities, which is closely related to aging in place.

### AARP Publications:

AARP offers a variety of publications, articles, and resources related to aging in place, including informative guides and reports on various aging-related topics.

### Home Modifications: Beyond Accessibility:

This publication by the Rehabilitation Engineering Research Center on Home and Community Living provides comprehensive information on home modifications and accessibility.

These books and publications cover a range of topics related to aging in place, from home modifications and design to healthcare and community planning. They can be valuable resources for both professionals in the field and individuals looking to support aging family members in their desire to age in place.

### Industry Associations and Conferences:

Industry associations and conferences play a crucial role in the field of aging in place by providing professionals with opportunities for networking, education, and staying updated on industry trends. Here are some prominent industry associations and conferences related to aging in place:

## **Industry Associations:**

National Aging in Place Council (NAIPC):

Website: [AginginPlace.org](http://AginginPlace.org)

NAIPC is a leading organization dedicated to helping seniors age in place. They offer valuable resources, education, and networking opportunities for professionals in the field.
